

Dear District/Site History/ELA Supporters,

We are offering a series of FREE virtual trainings for 4th – 12th grade teachers to support history/ELA in our county. This professional development opportunity, designed by and for teachers, will assist educators in enhancing daily instruction utilizing History Day resources and materials.

In the envelope you will find a flyer for the virtual sessions "Make History in the Classroom" and registration forms for each session. Please share this valuable professional development! Be sure to post and share the flyers with teachers in grades 4-12 involved in teaching history and language arts.

Thank you!

Please scan QR for the recording of the first session.
