WJC TRAPP ELEMENTARY PTA

August 2020

Dear Trapp Families:

Welcome to Trapp Elementary School! As the country confronts COVID-19, our utmost priority is to help keep our members safe and healthy, while meeting the educational, as well as the social and emotional needs of all students, educators and families. As our Rialto community adjusts to "sheltering at home" and Bridge Academy, Trapp PTA has been working with staff to make modifications to our upcoming school year events in an effort to best support our community.

We invite you to join us to make a difference in the education of our children. Our continued goal is to unite our families, parents, teachers, staff, and community members, so we can bring about programs and activities that will benefit our children. We are proud to announce that Trapp was honored with the designation of National PTA Schools of Excellence, a distinction that spans two years for the 2019-2020. PTA is a partnership between Parents and Educators who strive to enhance and enrich learning outcomes in the lives of students within the school. It is also a forum for families to obtain knowledge about how to advocate and to voice your opinions about what is happening in their school. By getting involved at Trapp you'll be part of the solution by helping to make positive changes. Trapp PTA also plays an important role in fundraising for curriculum based programs and social events.

We are pleased to announce that California State PTA has partnered with TOTEM to design and develop an electronic membership system specifically for PTAs in California. If you would like to join, please visit https://jointotem.com/ca/rialto/w-j-c-trapp-elementary-pta . As a member, you are invited to attend our association meetings (will be virtual for now) held during the school year. You are not required to attend, but your input and suggestions are greatly appreciated. A schedule of our PTA meetings can be found on our school web page. In addition, you may also go online to the California PTA website at (www.capta.org) to find community businesses that provide PTA member discounts.

Every PTA is a 501(c) (3) nonprofit organization, and, therefore, your membership is tax deductible. If you would like further information, feel free to contact the PTA through the school office or at WJCTrappPTA@yahoo.com.

Sincerely,

Tricia Garcia
PTA President

"We invite every parent, teacher and neighbor to join with PTA, as we work to make Trapp PTA the best it can be for our students...our most precious resource."

YOUR PTA EVENTS AND PROGRAMS

- Red Ribbon Week
- Kindness Week
- Reading Club
- Student of the Month
- Box Tops for Education
- Honorary Service Awards
- Scholarships
- Assemblies
- Read Across America

Here's how to join PTA using a QR code and will be able to navigate directly to the page on their phone.

Users point their camera phones to the QR code and will be able to navigate directly to the page on their phone.

Users can sign up multiple members of a household and collect optional donations with a single checkout.

For Iphone users

Step 1: Open up the camera app. Apple's iPhones have built-in QR code scanning capabilities right in the camera app itself.
Step 2: Position your phone so the QR code appears in the digital viewfinder.

Step 3: Launch the code

For more information:

Visit https://jointotem.com/ca/rialto/w-j-c-trapp-elementary-pta

For Android Users

Step 1: Check to see if your Android phone supports QR code scanning. The Google Assistant can detect QR codes, though. Simply long-press on the *Home* icon or say "OK, Google," then tap the *Google Lens* icon at the bottom right.

Step 2: Open your scanning app. Open up the app, whether it's Bixby, QR Code Reader, Samsung Optical Reader, or whatever option is installed on your Android phone.

Step 3: Position the QR code. Remember, the code's corners should be fully visible in the scanning window, and the camera should be more or less directly above the code for it to work. Hold the phone steady while it identifies the code.

Step 4: Choose the correct option. The app should then provide a pop-up option to take an action based on the QR code.
