

Suicide Prevention

The Board of Education recognizes that suicide is a major cause of death among youth and should be taken seriously. In order to attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop preventive strategies and intervention procedures.

The Superintendent or designee may involve school health professionals, school counselors, administrators, other staff, parents/guardians, students, local health agencies and professionals, and community organizations in planning, implementing, and evaluating the District's strategies for suicide prevention and intervention.

(cf. [5145.9](#) - Hate-Motivated Behavior)

The District's comprehensive health education program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and self-esteem. Suicide prevention instruction shall be incorporated into the health education curriculum in the secondary grades. Such instruction shall be aligned with state content standards and shall be designed to help students analyze signs of depression and self-destructive behaviors, including potential suicide, and to identify suicide prevention strategies.

(cf. [6142.8](#) - Comprehensive Health Education)

The Superintendent or designee may offer parents/guardians education or information which describes the severity of the youth suicide problem, and the District's suicide prevention curriculum, risk factors and warning signs of suicide, basic steps for helping suicidal youth, and/or school and community resources that can help youth in crisis.

Staff Development

Suicide prevention training for staff shall be designed to help staff identify and respond to students at risk of suicide. The training shall be offered under the direction of a District counselor/psychologist and/or in cooperation with one or more community mental health agencies and may include information on:

1. Research identifying risk factors, such as previous suicide attempt(s), history of depression or mental illness, substance use problems, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, and other factors

(cf. [5131.6](#) - Alcohol and Other Drugs)

2. Warning signs that may indicate suicidal intentions, including changes in students' appearance, personality, or behavior

3. Research-based instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health

4. School and community resources and services

(cf. [5141.6](#) - School Health Services)

(cf. [6164.2](#) - Guidance/Counseling Services)

5. District procedures for intervening when a student attempts, threatens, or discloses the desire to commit suicide

(cf. [4131/4231/4331](#) - Staff Development)

Intervention

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, he/she shall promptly notify the principal or school counselor.

(cf. [5141](#) - Health Care and Emergencies)

Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

Whenever schools establish a peer counseling system to provide support for students, peer counselors shall complete the suicide prevention curriculum, including identification of the warning signs of suicidal behavior and referral of a suicidal student to appropriate adults.

(cf. 5138 - Conflict Resolution/Peer Mediation)

The Superintendent or designee shall establish crisis intervention procedures to ensure student safety and appropriate communications in the event that a suicide occurs or an attempt is made on campus or at a school-sponsored activity.
