Micheal's Interview

Good News Report

By: Evelyn Carranza

Interview: Micheal Osborne

Michaels Interview with me Evelyn Carranza

The first question I asked Micheal was if he went on a memorable field trip when he was in school and then Micheal said "No I didn't have one."

And then next thing I asked was "What was his plans for the Summer". And he replied with an answer "Maybe get wet or something". And then I asked him "Ok then what do you like about getting wet?" He said "Because getting wet in the summer of course because it's fun and it's more fun because he likes to play with his little brothers. They have a big pool to play swimming and do backflips."

Then I asked Micheal , “ What would you do if the Covid-19 or pandemic was over?”. He replied with “ When the pandemic is over his family is planning to go to DisneyLand or CastlePark”. I added with “Why would he like to go to DisneyLand or Castlepark”. He said “ Because my family really likes Disneyland and Castlepark and the last time we went was on his little brother's fourth birthday”.

Next I asked “What he likes about being at home with his family?”. Micheal said “What I like about staying home is because there is a virus everywhere and I don't like to get that virus”. Then I asked “ What do you like about distance learning?”. Micheal replied with “ Staying home and relaxing while I'm playing or doing something and also because I want to go to real school”. And I added with “Why do you like real school?” And he said “What I like about school is that I get to play on the playground with my friends and do a back spring off the ground and backflip and maybe also play on the grass”.

The Last question I asked Micheal was “ Does the Covid-19 mess up your plans to do things or go places or hang out with friends, Family, and others?” And Micheal replied with “ Yes because me and my family were at a Zoo when the Covid-19 started. Then on a Saturday we wanted to go to the Zoo again when we realized when the Covid was starting to go crazy.”

Just to sum up, Micheal was the best interview I had ever had.
