Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Rialto Unified School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Education
Rialto Unified School District
Rialto, CA 92376

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Restatement

As discussed in Note 18 to the financial statements, net position has been restated in the governmental activities for a correction of an error. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the net OPEB liability, schedule of postemployment healthcare benefits employer contributions, schedule of postemployment healthcare benefits money-weighted rate of return on plan assets, schedule of the District's proportionate share of the net pension liability and schedule of the District's pension contributions, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITOR'S REPORT

Board of Education
Rialto Unified School District

Other Information

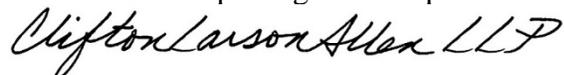

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, the other supplementary schedules and the combining non-major fund financial statements as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Average Daily Attendance (ADA), Schedule of Instructional Time, Schedule of Expenditures of Federal Awards, Reconciliation of the Annual Financial and Budget Report with the Audited Financial Statements, the Notes to the Supplementary Information and the combining non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The History and Organization, Schedule of Financial Trends and Analysis and Schedule of Charter Schools have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Fiscal Year Ended June 30, 2019

MD&A

Introduction

The following discussion and analysis provides an overview of the financial position and activities of the District for the year ended June 30, 2019. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes thereto which follow this section.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in its Statement No. 34 (Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments) issued June 1999. Certain comparative information between the current and prior year is required to be presented in the MD&A.

Financial Highlights

- Overall revenues for governmental funds totaled \$382.5 million or \$2.7 million less than expenditures.
- Overall the District's net capital assets increased by \$2.3 million over the course of the year. This was primarily due to the completion of the new performing arts theatre at Eisenhower High School.
- The District's total long-term debt obligations increased by \$4.5 million during the current fiscal year. The increase was primarily due to an increase in the Net Pension Liability.
- At the end of the current fiscal year, assigned, nonspendable, restricted and unassigned fund balances for the General Fund, including the reserve for economic uncertainties was \$76.3 million or 22.2% of total General Fund expenditures.

Student Enrollment and Average Daily Attendance (ADA)

This section provides an overview of the District's enrollment and attendance trends.

Projected Student Enrollment –

- Enrollment has been decreasing since the 2005-06 school year. On average, the District's enrollment has decreased by 300 students over the last three years.
- The District anticipates enrollment to continue to decline at the same rate in the upcoming years.

RIALTO UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019

Projected Student Average Daily Attendance (ADA) –

- The Districts ADA has decreased because of an overall decrease in student enrollment.
- ADA will continue to decline as enrollment is projected to continue decreasing.

Fund Financial Statements

More detailed information about the District's major governmental funds, not the District as a whole, are provided in the fund financial statements. Other governmental funds are combined and presented in a single column. Funds are accounting formats the District uses to keep track of specific sources of funding and expenditures in a particular program. Some funds are required by bond covenants, by state law and other funds are established by the District to control and manage a variety of activities for particular purposes (such as repaying its long-term debts). Other funds may also address specific accounting requirements for certain revenue and expenditure classifications (such as federal grants).

The District maintains three classes of funds:

Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on how cash and other financial assets can readily be converted to cash flow (in and out) and focus on the balances left at year-end that are available for expenditure in subsequent years. A detailed short-term view is provided by the government fund statements. These help determine whether there are more or fewer financial resources that can be spent in the near future for financing the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information is presented in a separate reconciliation provided after the governmental fund statements that explains the differences (or relationships) between the governmental fund statements and the government-wide statements.

Proprietary funds: The proprietary fund category includes enterprise. An enterprise fund operates as a business-type activity, and additional information such as a cash flow statement is presented. Proprietary funds are reported in the same manner as the District-wide statements. Currently the District has one enterprise fund, the Other Enterprise Fund, used to operate the District's Compressed Natural Gas (CNG) station.

Fiduciary funds: For assets that belong to others, such as student activities funds, the District acts as the trustee, or fiduciary. The District has nine Associated Student Body Funds. The District is responsible for ensuring that the assets reported in these funds are only used for their intended purpose and by those to whom the assets belong. A separate statement of fiduciary net position reports the District's fiduciary activities. These activities are excluded from the District-wide financial statements, as the assets cannot be used to finance other District operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Fiscal Year Ended June 30, 2019

Statement of Net Position

The Statement of Net Position presents the assets and liabilities of the District as of the end of the fiscal year and is prepared using the accrual basis of accounting, which is similar to the accounting basis used by most private-sector organizations. The Statement of Net Position is a point of time financial statement whose purpose is to present to the readers a fiscal snapshot of the District. The Statement of Net Position presents end-of-year data concerning assets, deferred outflow of resources, liabilities (current and non-current) and net position (assets, plus deferred outflow of resources, minus liabilities and deferred inflows of resources).

From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the operations of the District. Readers are also able to determine the amount owed by the District. Finally, the Statement of Net Position provides a picture of the net position and the availability of those assets for expenditure.

The difference between total assets, plus deferred outflow of resources, less total liabilities and deferred inflows of resources (net position) is one indicator of the current financial condition of the District, and the change in net position is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allocation for depreciation expense. The deferred outflow of resources is comprised of the deferred charge on refunding general obligation bond debt. The deferred charge on refunding is the difference between the reacquisition price and the net carrying amount of the old debt refunded, and a portion is amortized each year. The deferred inflows of resources result from actuarial changes in the District's OPEB and pension plans.

The net position is presented in three major categories. The first category provides the information in regards to equity amount in property, plant, and equipment owned by the District. The second category provides information on net position that is restricted by external parties as to use. The third category provides information on unrestricted net position that is available for obligations as may be approved by the Board of Education.

During the 2018-2019 fiscal year the District restructured its debt to provide a more advantageous financial position. The 1997 Certificate of Participation and 2006 Certificate of Participation were paid off on October 3, 2018, saving the district over \$700,000 in interest expense. In support of the District’s Green Schools initiative, the District obtained a \$905,871 zero interest loan from Southern California Edison for the installation of energy efficient equipment. The District also offered a Supplemental Early Retirement Incentive (SERP) to 172 employees, for a total liability of \$11,038,265.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019**

Statement of Activities (continued)

- Total revenues of the governmental activities increased by \$31.1 million between fiscal years. The increase is a result of Federal and State aide, the majority arising from the Local Control Funding Formula (LCFF), one time state funds, and the additional STRS and PERS on-half revenue adjustment.
- Total expenses of the governmental activities increased in 2018-19 by \$42 million between fiscal years. The increase is mainly attributed to the increase in salaries and benefits, several capital projects at our schools, investment in instructional technology and the Local Control Accountability Plan (LCAP) approved programs.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2019, the District had an increase of \$2.3 million invested in capital assets, net of depreciation, in governmental funds. The change is net effect of the completion of several classroom addition projects and the increase in depreciation expense.

Note 6 to the financial statements provides additional information on capital assets. A summary of capital assets net of depreciation at year-end for 2018 and 2019 are presented below:

Economic Factors That May Affect the Future

2019-20 STATE BUDGET - The Local Control Funding Formula (LCFF) has increased the funding and resources for all school districts. The new funding model gives local school districts the discretion to implement the programs and strategies that best support their educational program and needs of their community. The LCFF provides concentration and supplemental grants to further support economically disadvantaged, English learner and foster youth students.

To ensure the funds are utilized effectively, the LCFF required the school district to prepare a Local Control Accountability Plan. This plan is a strategic planning and evaluation tool developed amongst the parent, community, and District stakeholders. It intends to increase public transparency and accountability for improving student achievement by utilizing dollars effectively. The Rialto Unified School District LCAP was adopted on June 26, 2019 for the 2019-2020 school year.

The LCFF provides a positive forecast for the future of education; however, the District will have to be strategic and cautious in administering its finances. There is no statutory guaranteed increase in any given year. The LCFF was funded 100% by the end of 19-20. A conservative approach must be taken to sustain a balanced budget and protect the current and future fiscal solvency of the school district.

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2019

Net change in fund balances - total governmental funds \$ (1,357,782)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense.

Capital outlay	\$ 20,053,662	
Depreciation expense	(17,690,990)	
Excess of capital outlay over depreciation expense		2,362,672

Gain or loss from disposal of capital assets: in governmental funds, the entire proceeds from disposal of capital assets are reported as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the proceeds from disposal of capital assets and the resulting loss is:

Disposal of capital assets		(65,964)
----------------------------	--	----------

Debt proceeds: In governmental fund, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount, were: Edison On-Bill Financing

(905,871)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Certificates of participation principal payment	4,325,000	
Energy upgrades lease	639,286	
General obligation bond principal and accreted interest payment	5,583,494	
Edison On-Bill financing	38,978	
City of Rialto redevelopment agency loan	529,117	11,115,875

In governmental funds, pension costs are recognized when the employer contribution is made, but in the statement of activities, pension costs are recognized on the accrual basis. The difference between accrual basis pension costs and actual employer contribution was:

(14,425,249)

In governmental funds, OPEB expenses are recognized when OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. The difference between OPEB expenses and actual employer OPEB contributions was:

(488,673)

Other liabilities not normally liquidated with current financial resources: in the government-wide statements expense must be accrued in connection with any liabilities incurred during the period that are not expected to be liquidated with current financial resources, in addition to compensated absences and long-term debt. Examples included special termination benefits such as retirement incentives financed over time, and structured legal settlements. This year, expense incurred for such obligations were:

(8,826,180)

Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. These activities consist of:

Net decrease in accrued interest	166,925	
Net increase in accreted interest	(3,103,842)	
Net increase in compensated absences	(111,271)	
Net decrease in premium on general obligation bonds	113,361

**NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*, updated to conform to the most current financial and reporting requirements promulgated by the California Department of Education. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The significant accounting policies applicable to the District are described below.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with GAAP as prescribed by GASB. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the District's financial activities. The entity-wide perspective enhances the fund-group perspective previously required. Fiduciary activities are excluded from the basic financial statements and are reported separately in the fiduciary fund statements.

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position, a Statement of Activities, and fund financial statements.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities displays information about the District as a whole. These statements include the financial activities of the primary government. Fiduciary funds are excluded.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. Depreciation and interest expense have not been allocated to specific functions.

RIALTO UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

The fund financial statement expenditures are presented in a function-oriented format. The following is a brief description of the functions:

Instruction: includes the activities directly dealing with the interaction between teachers and students.

Instruction-Related Services: includes supervision of instruction, instructional library, media and technology, and school site administration.

Pupil Services: includes home to school transportation, food services, and other pupil services.

General Administration: includes data processing services and all other general administration services.

Plant Services: includes activities of maintaining the physical plant. This also includes facilities acquisition and construction expenditures.

Other Outgo: includes transfers to other agencies.

Debt Service: includes principal and interest payments for long term debt.

The proprietary and fiduciary fund expenses are presented by natural classification.

Fund Accounting

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations, and equities.

The Statement of Revenues, Expenditures and Changes in Fund Balance are statements of financial activities of the particular fund related to the current reporting period. Expenditures of the various funds frequently include amounts for land, buildings, equipment, retirement of

indebtedness, transfers to other funds, etc. Consequently, these statements do not purport to present the result of operations or the net income or loss for the period as would a statement of income for a profit-type organization. The modified accrual basis of accounting is used for all governmental funds.

Governmental Funds – Major

General Fund: used to account for all financial resources except those required to be accounted for in another fund.

Nutrition Services Fund: used to account for revenues received and expenses made to operate the District's food service programs.

Governmental Funds – Non-Major

Special Revenue Funds: used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

Adult Education Fund: used to account for resources restricted or committed to adult education programs maintained by the District.

Child Development Fund: used to account for resources committed to child development programs.

Capital Projects Funds: used to account for the financial resources that are restricted, committed or assigned for the acquisition and/or construction of major governmental general fixed assets.

Building Fund: used to account for proceeds from the sale of bonds and may not be used for any purposes other than those for which the bonds were issued.

Capital Facilities Fund: used to account for resources received from residential and commercial developer impact fees.

County School Facilities Fund: used to account for the School Facility Program grants award for modernization and new construction of various school sites.

Special Reserve Fund: used to account for specific board-approved capital expenditures.

Debt Service Funds: used to account for the financial resources that are restricted, committed or

assigned and the accumulation of resources for, the payment of general long-term debt principal, interest, and related costs. *Bond Interest and Redemption Fund*: used to account for the payment of principal and interest on general long-term debt.

Proprietary Funds

Enterprise Fund: used to account for any activity for which a fee is charged to external users for goods or services.

Other Enterprise Fund: used to account for the revenues and expenditures generated from the CNG public fueling station.

Fiduciary Funds

Associated Student Body Fund: used to account for raising and expending money to promote the general welfare, morale, and educational experiences of the student body. The District operates nine organized Associated Student Body funds.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. Revenues in governmental fund financial statements are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Enterprise and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue and in the presentation and recognition of expenses versus expenditures.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the county treasury is recorded at cost, which approximates fair value.

RIALTO UNIFIED SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Receivables

Receivables are generally recorded when the amount is earned and can be estimated. All material receivables are considered fully collectible.

Inventories

Inventories are presented at the lower of cost or market on an average basis and are expensed when used. Inventory consists of expendable supplies held for consumption. At June 30, 2019, the inventory for supplies is \$158,770. The inventory for food is \$506,608.

Prepaid Expenses/Expenditures

Payments made to vendors for goods or services that will benefit periods beyond June 30, 2019, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense/expenditure is reported in the year in which goods or services are consumed.

Capital Assets

Generally, capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Statement of Net Position, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined by GASB. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	20-50 years
Furniture and equipment	2-15 years
Vehicles	2-15 years

RIALTO UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Depreciation expense reported on the government-wide statement of activities excludes direct depreciation expense recorded to functions where applicable.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position by the District that is applicable to a future reporting period. The District has the following deferred outflows of resources:

Deferred Charge on Refunding: A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred Outflows – OPEB: The deferred outflows of resources related to OPEB benefits results from District contributions to employee plans subsequent to the measurement date of the actuarial valuations for the plans. The deferred outflows – OPEB will be deferred and amortized as detailed in Note 15 to the financial statements.

Deferred Outflows – Pensions: The deferred outflows of resources related to pensions resulted from District contributions to employee pension plans subsequent to the measurement date of the actuarial valuations for the pension plans and the effects of actuarially-determined changes to the pension plan. The deferred outflows – pensions will be deferred and amortized as detailed in Note 16 to the financial statements.

Postemployment Healthcare Benefits (OPEB)

For purposes of measuring the District's OPEB liability related to the California Employers' Retiree Benefit Trust (CERBT) Defined Benefit Agent Multiple Employer Other Postemployment Benefits Plan administered by the California Public Employee's Retirement System (CalPERS), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the CERBT Program and additions to/deductions from the CERBT fiduciary net position have been determined on the same basis as they are reported by the CERBT. For this purpose, the CERBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Net Pension Liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plan' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position by the District that is applicable to a future reporting period. The District has the following deferred inflows of resources:

Deferred Inflows – OPEB: The deferred inflows of resources related to OPEB benefits results from the difference between the estimated and actual return on OPEB plan investments. These amounts are deferred and amortized as detailed in Note 15 to the financial statements.

Deferred Inflows – Pensions: The deferred inflows of resources related to pensions resulted from the effects of actuarially-determined changes to the pension plan. These amounts are deferred and amortized as detailed in Note 16 to the financial statements.

Unearned Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent cash received on specific projects and programs exceed qualified expenditures.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as a liability when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave, therefore, accumulated employee sick leave benefits are not recognized as a liability of the District. The District's policy is to record sick leave as an operating expense in the period taken. However, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Long-Term Obligations

The District reports long-term debt of governmental funds at face value in the government-wide financial statements. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. General obligation bonds are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on use through external restrictions imposed by donors, grantors, laws or regulations of other governments or by enabling legislation adopted by the District. All other net position is unrestricted.

Fund Balance Classification

The governmental fund financial statements present fund balance classifications that comprise a hierarchy based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

RIALTO UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Assigned: Amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. The Board of Education, through a formal action has given authority to Assistant Superintendent of Business to assign amounts for a specific purpose that is neither restricted nor committed.

Unassigned: The residual fund balance for the General Fund and all other spendable amounts.

Spending Order Policy

The District considers restricted amounts to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted net position or fund balance is available.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District's policy considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Education has provided otherwise in its commitment or assignment functions.

Minimum Fund Balance Policy

The District has adopted a minimum fund balance policy in order to protect against revenue shortfalls and unexpected one-time expenditures. The policy requires a reserve for economic uncertainties consisting of unassigned amounts which represent the minimum recommended reserve consistent with the criteria and standards for fiscal solvency adopted by the State Board of Education. The minimum recommended reserve for a district this size is 3% of budgeted General Fund expenditures and other financing uses.

State Apportionments

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year. Second period to annual corrections for local control funding formula and other state apportionments (either positive or negative) are accrued at the end of the fiscal year.

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1st. Taxes are payable in two installments on November 1st and February 1st. Unsecured property taxes are payable in one installment on or before August 31st.

RIALTO UNIFIED SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Real and personal property tax revenues are reported in the same manner in which the county auditor records and reports actual property tax receipts to the California Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the state for local control funding formula purposes.

On-Behalf Payments

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System (STRS) on behalf of all school districts in California. During the current year the State of California made additional one time contributions to the State Teachers' Retirement System and to the California Public Employees' Retirement System (CalPERS). On-behalf payments of \$18,861,095 for STRS and \$2,952,650 for CalPERS were made for the District and have been recorded in the financial statements.

Contributed Services

Generally accepted accounting principles require that contributions of donated services that create or enhance non-financial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are to be recorded at fair value in the period received. Although the District receives numerous hours of volunteer time, it is not deemed necessary to record these hours on the books of the District based on the above guidelines. In addition, the District receives donations of immaterial equipment and supplies which are not recorded upon receipt.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the Board of Education.

RIALTO UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and a financial benefit or burden relationship is present and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Due to the nature and significance of their relationship with the District, including ongoing financial support of the District or its other component units, certain organizations warrant inclusion as part of the financial reporting entity. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.
- The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component unit has been included in the District's reporting entity:

The Rialto Unified School District School Facilities Corporation: The financial activity has been blended in the District's Special Reserve for Capital Outlay Fund and the General Fund. The liability associated with the Certificates of Participation issued by the Corporation was paid in full during the year ended June 30, 2019. Individually prepared financial statements are not prepared for the Corporation.

The following potential component unit has been excluded from the District's reporting entity:

Various PTA, PTO and Booster Clubs: Each of these types of organizations at each of the school sites within the District were evaluated using the three criteria listed above. Each entity has been excluded as a component unit because the third criterion was not met in all cases; the economic resources received and held by the PTA, PTO and the Booster Club individually are not significant to the District.

RIALTO UNIFIED SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: BUDGETS

By state law, the District's Governing Board must approve a budget no later than July 1, using the Single Adoption Budget process. A public hearing must be conducted to receive comments prior to adoption. The District's Governing Board satisfied these requirements. Budgets for all governmental funds were adopted on a basis consistent with GAAP.

These budgets are revised by the District's Governing Board during the year to give consideration to unanticipated income and expenditures. The original and final revised budget for the General Fund is presented in a budgetary comparison schedule in the required supplementary section.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

NOTE 3: DEPOSITS AND INVESTMENTS

Deposits

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of June 30, 2019, \$1,254,401 of the District's bank balance of \$1,518,865 was exposed to credit risk as uninsured and collateral held by the pledging bank's trust department, not in the District's name.

Investments

Cash in County

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the San Bernardino County Treasury as part of the common investment pool. The District is considered an involuntary participant in the investment pool. These pooled funds are recorded at amortized cost which approximates fair value. Fair value of the pooled investments at June 30, 2019 is measured at 100.90% of amortized cost. The District's deposits in the fund are considered to be highly liquid.

The county is authorized to deposit cash and invest excess funds by California Government Code Sections 53601, 53635, 53534 and 53648. The county is restricted to invest time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The funds maintained by the county are either secured by

federal depository insurance or are collateralized. The county investment pool is not required to be rated. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county investment pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statues and the County Board of Supervisors set forth the various investment policies that the Country Treasurer follow. The method used to determine the value of the participant’s equity withdrawn is based on the book value, which is amortized cost, of the participant’s percentage participation on the date of such withdrawals.

The pool sponsor’s annual financial report may be obtained from the San Bernardino County office at 760 East Brier Drive, San Bernardino, CA 92408.

NOTE 4: INTERFUND TRANSACTIONS

Interfund activity has been eliminated in the Government-wide statements. The following balances and transactions are reported in the fund financial statements.

Interfund Receivables/Payables

Individual interfund receivable and payable balances at June 30, 2019 are temporary loans and are detailed as follows:

NOTE 7: LONG-TERM DEBT – SCHEDULE OF CHANGES

Payments for the General Obligation Bonds are made from the Bond Interest and Redemption Fund. Payments for the City of Rialto Redevelopment Agency Loan, Energy on-bill financing, SERP and the Energy Upgrades Lease are made by the General Fund. The accumulated vacation liability will be paid from the fund from which the employee was paid. Postemployment healthcare benefits are paid by the General Fund.

NOTE 8: LEASES

Operating Leases

The District has entered into various operating leases for land, buildings, and equipment with lease terms in excess of one year. None of these agreements contain purchase options. Future minimum lease payments under these agreements are as follows:

<u>Year Ending June 30,</u>	<u>Lease Payment</u>
2020	\$ 3,933,519
2021	1,952,756
Total	<u>\$ 5,886,275</u>

Current year expenditures for operating leases is approximately \$7.4 million. The District will receive no sublease rental revenues nor pay any contingent rentals for these properties.

NOTE 9: CERTIFICATES OF PARTICIPATION

The agreement dated June 2006, is between the District as the "lessee" and the Rialto Unified School District School Facilities Corporation as the "lessor" or "corporation". The Rialto Unified School District Corporation is a legally separate entity which was formed for the sole purpose of acquiring equipment and capital outlay and then leasing such items to the District.

The Corporation's funds for acquiring these items were generated by the issuance of \$4,770,000 of Certificates of Participation (COPs). COPs are long-term debt instruments which are tax exempt and, therefore, issued at interest rates below current market levels for taxable investments.

Lease payments are required to be made by the District under the lease agreement on each March and September for use and possession of the equipment for the period commencing March 1, 2007 and terminating September 1, 2029. Lease payments will be funded in part from the proceeds of the Certificates. Interest rates range from 4.00% to 6.00% for the length of the issuance.

RIALTO UNIFIED SCHOOL DISTRICT

NOTE 9: CERTIFICATES OF PARTICIPATION

The lease requires that lease payments be deposited in the lease payment fund maintained by the trustee. Any amount held in the lease payment fund will be credited towards the lease payment due and payable.

In September 1997, the Rialto Unified School District Facilities Corporation issued the 1997 Refunding Certificates of Participation in the amount of \$12,530,000, with the Certificates being subject to mandatory tender and remarketing in September 2002. Interest represented by the Certificates was originally fixed through September 1, 2002.

On September 12, 2018, the Board of Education approved a resolution authorizing the payoff of the 1997 and 2006 Certificates, at a current year expense of \$3,651,774 and a cost savings of \$767,163. The amount was paid from the General Fund. At June 30, 2019, all Certificates have been redeemed.

NOTE 10: GENERAL OBLIGATION BONDS

Measure H 1999 Election

On September 14, 1999, \$60,000,000 in general obligation bonds were authorized at a special election held within the District. The bonds were authorized to finance the acquisition, construction, and modernization of school facilities and paying related costs.

Between 2000 and 2004, the District issued bonds, Series A – C, totaling \$59,995,038. In 2012, the District issued a refunding bond (Series 2012) to advance refund portions of Series B and C.

The balance of the bonds refunded was \$2,545,274 less than the amount paid into the escrow account. This amount is recorded as a deferred charge on the statement of net position and amortized to interest expense over the life of the new debt. Amortization of \$161,605 was recognized during the year ended June 30, 2019.

Capital appreciation bonds were issued as part of Series A with maturity dates from 2012 through 2025. Prior to the applicable maturity date, each bond will accrue accreted interest on the principal components, with all interest accreting through the applicable maturity date and payable only upon maturity or prior payment of the principal component. Accreted interest accrued and included as an addition in the long-term debt schedule is \$578,782. Accreted interest paid and included as a deduction in the long-term debt schedule is \$1,131,506. The balance of accreted interest at June 30, 2019 is \$5,565,099.

Proceeds received in excess of debt are added to the maturity amount and amortized to interest expense over the life of the liability. The refunding bonds included a premium of \$1,716,066. The amount will be amortized using the straight-line method. Amortization of \$107,254 was recognized for fiscal year 2018-19.

NOTE 10: GENERAL OBLIGATION BONDS

Measure Y 2010 Election

On November 2, 2010, \$98,000,000 in general obligation bonds were authorized by an election held within the District. The bonds were authorized to finance the acquisition, construction, and modernization of school facilities and paying related costs.

Between 2011 and 2015, the District issued bonds, Series A, B and 2015, totaling \$68,642,187.

Capital appreciation bonds were issued as part of Series A with maturity dates from 2027 through 2042. Prior to the applicable maturity date, each bond will accrue accreted interest on the principal components, with all interest accreting through the applicable maturity date and payable only upon maturity or prior payment of the principal component. Accreted interest accrued and included as an addition in the long-term debt schedule is \$3,656,566. The balance of accreted interest at June 30, 2019 is \$22,558,634.

Premium and discounts are netted against the carrying amount of the bonds and are amortized to interest expense over the life of the liability. The Series A bonds included a premium of \$2,347,592 and the Series B bonds included a discount of \$1,068,488. These amount will be amortized using the straight-line method. Net amortization of \$6,107 was recognized for fiscal year 2018-19.

The outstanding general obligation bonded debt of the District at June 30, 2019 is:

NOTE 15: POST EMPLOYMENT HEALTHCARE BENEFITS

The District administers a single-employer defined healthcare plan (the Retiree Health Plan). The plan provides health, dental, vision and life insurance benefits to District employees and retirees. Medical insurance is provided through CalPERS and the District offers the following plans: Kaiser HMO, Blue Shield Access+ HMO, Anthem Select HMO, Anthem Traditional HMO, Health Net Salud Y Mas HMO, Health Net SmartCare HMO, United Health Care HMO, PERS Choice PPO, PERS Select PPO, and PERS Care PPO. Dental insurance is provided through Delta Dental of California; vision insurance is provided through VSP; and group term life insurance is provided through Hartford.

As of June 30, 2019, the District’s total liability for post-employment healthcare benefits consisted of the following:

OPEB Plan	Net OPEB Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	OPEB Expense
Retiree Benefits Plan	\$ 28,435,833	\$ 2,241,452	\$ 72,838	\$ 3,180,750

The details of the plan are as follows:

Plan Description and Eligibility

Retirees with at least 15 years of service may retire at age 55 and receive a monthly District contribution equal to \$1,040 for certificated employees and \$1,224 for classified employees.

NOTE 15: POST EMPLOYMENT HEALTHCARE BENEFITS

District paid benefits end at age 65. Part-time Classified employees who work at least 30 hours per week prior to retirement receive full benefits as described above. Classified unit members who work at least 20 hours per week, and all part-time Certificated members, receive a pro-rata share of the District contribution. Benefit provisions are established through negotiations between the District and the bargaining unions representing employees and are renegotiated annually. The Retiree Health Plan does not issue a separate financial report.

Membership in the health benefit plan consisted of the following at February 1, 2017, the date of the latest actuarial valuation.

Participant Type:	Number of Participants
Inactive participants currently receiving benefits	145
Active employees	2,027
Total	2,172

Funding Policy

The contribution requirements of the Plan members and the District are established and may be amended by the District and District’s bargaining units. The required contribution is based on projected pay-as-you-go financing requirements. The District contributes up to the maximum of \$14,686 for certificated employees and \$16,601 for classified employees per year to eligible retirees as applicable. For fiscal year ended 2019, the District contributed \$2,241,452 to the plan, which includes an implicit rate subsidy.

NOTE 15: POST EMPLOYMENT HEALTHCARE BENEFITS

At June 30, 2019, the District reported deferred inflows and outflows as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
OPEB Deferred Outflows and Inflows of Resources		
Contributions subsequent to measurement date	\$ 2,241,452	\$ -
Net differences between projected and actual earnings on plan investments	-	72,838
Total	\$ 2,241,452	\$ 72,838

The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized of the net OPEB liability in the year ended June 30, 2020.

The deferred inflow of resources related to the net difference between projected and actual earnings on OPEB plan investments. This deferred inflow is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.

The deferred outflows of resources resulting from the difference in actuarial assumptions and actual experience and the deferred outflows of resources resulting from a change of assumptions and is amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the OPEB plan for June 30, 2019 is 14.6 years. A year of amortization is recognized in OPEB expense for the year the gain or loss occurs. The remaining amount is deferred and will be amortized over the remaining periods not to exceed 13.6 years.

This amount will be amortized to OPEB expense as follows:

Year Ending June 30,	Amortization

Plan Investments

The District participates in the California Employers' Retiree Benefit Trust (CERBT) Defined Benefit Agent Multiple Employer Other Postemployment Benefits Plan administered by the California Public Employee's Retirement System (CalPERS). CERBT consists of participating employers of the State of California and public agencies. CalPERS is governed by the Board of Administration (the Board), which consists of 13 members; two elected by CalPERS members,

one elected by retired members of CalPERS, two appointed by the Governor, one public representative appointed jointly by the Speaker of the Assembly and Senate Rules Committee and four ex-officio members: State Treasurer, State Controller, Director of California Department of Human Resources and Designee of the State Personal Board. The Board is responsible for the management and control of CalPERS, including the exclusive control of the administration and investment of the plan.

The CERBT was established by Chapter 331 of the 1988 California Statutes, and employers elect to participate in the CERBT to pre-fund health, dental, and other non-pension postemployment benefits for their retirees and survivors. The CERBT has pooled administrative and investment functions, while separate employer accounts are maintained to prefund and pay for health care or other postemployment benefits in accordance with the terms of the participating employers' plans. There are three Board approved investment strategies for employers to choose from depending on their expected levels of return and volatility. Benefit provisions are established by participating employers. CERBT is reported as an OPEB trust fund within the CalPERS Comprehensive Annual Financial Report and also issues a separate Schedule of Changes in Fiduciary Net Position by Employer that is prepared in accordance with accounting principles generally accepted in the United States of America.

The District's policy regarding the allocation of the plan's invested assets is established and may be amended by District management. The primary objective is to maximize total Plan return, subject to the risk and quality constraints set forth in the investment guidelines. The investment objective the District has selected is the Strategy 3 Plan, which has a goal to seek returns that reflect the broad investment performance of financial markets through capital appreciation and investment income. The asset allocation ranges for this objective as of June 30, 2019, are listed below:

<u>Asset Class</u>	<u>Strategic Asset Allocation Ranges</u>
Global equity	24.00%
Global fixed income	39.00%
Treasury inflation-protected securities	26.00%
Real estate	8.00%
Commodities	3.00%

Market conditions may cause the account's asset allocation to vary from the stated range from time to time. The investment manager (assisting the District) will rebalance the portfolio no less than quarterly and/or when the actual weighting differs substantially from the strategic range, if appropriate and consistent with the objectives.

For the year ended on the measurement date the annual money-weighted rate of return on investments, net of investment expense, was 7.48 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

Actuarial Methods and Assumptions

The total OPEB liability was determined by applying update procedures to an actuarial valuation as of February 1, 2017 and rolling forward to total OPEB liability to June 30, 2018. The following actuarial assumptions used in the February 1, 2017 valuation, applied to all periods included in the measurement, unless otherwise specified:

Valuation Data	February 1, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry Age, Level Percent of Pay
Discount Rate	6.0%
Salary Increases	3.0%
Healthcare Costs Trend Rate	6.0%
Retiree's Share of Costs	Retirees pay the balance of the premium after District contribution (limited to \$1,151 per annum)

Pre-retirement mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection. Post-retirement mortality rates were based on the RP-2014 Health Annuitant Mortality Table for Males or Females, as appropriate, without projection.

The assumptions were based on plan experience during the period February 1, 2015 to January 31, 2017.

Discount Rate

The discount rate used to measure the OPEB liability was 6%. This is the single, blended rate that reflects the long-term rate of return on OPEB plan investments to the extent that the OPEB plan's fiduciary net position is projected to be sufficient to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return. Based on the most recent crossover test, the plan's fiduciary net position was determined to be sufficient to make the projected benefits payments. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. To achieve the goal set by the investment policy, plan assets will be managed to earn, on a long-term basis, a rate of return equal to or in excess of the target rate of return of 6%.

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes to the STRP Defined Benefit Program and STRP Defined Benefit Supplement Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2019, are summarized as follows:

<u>Provisions and Benefits</u>	<u>STRP Defined Benefit Program and Supplement Program</u>

Contributions

Required member, District and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. The contribution rates for each plan for the year ended June 30, 2019 are presented above and the total District contributions were \$20,578,638.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

	Balance
Proportionate Share of Net Pension Liability	June 30, 2019
District proportionate share of net pension liability	\$ 206,790,750
State's proportionate share of the net pension liability associated with the District	118,397,956
Total	<u>\$ 325,188,706</u>

The net pension liability was measured as of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the state, actuarially determined. At June 30, 2018, the District's proportion was 0.2250%.

For the year ended June 30, 2019, the District recognized pension expense of \$26,650,157. In addition, the District recognized revenue and corresponding expense of \$13,909,090 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement periods on a net basis.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the STRP for the June 30, 2018 measurement date is seven years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed six years.

The remaining amount will be recognized to pension expense as follows:

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant and adopted by the CalSTRS Board in February 2017. The assumed asset allocation is based on board policy for target asset allocation in effect on February 2017, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

<u>Discount Rate</u>	<u>Net Pension Liability</u>
1% decrease (6.10%)	\$ 302,924,250
Current discount rate (7.10%)	206,790,750
1% increase (8.10%)	127,086,750

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the Schools Pool Plan under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law.

NOTE 16: EMPLOYEE RETIREMENT PLANS

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least 5 years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2019, are summarized as follows:

Provisions and Benefits	Schools Pool Plan (CalPERS)	
	On or Before December 31, 2012	On or after January 1, 2013

Required employee contribution rate	7.00%	7.00%
Required employer contribution rate	18.062%	18.062%

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2019 are as presented above and the total District contributions were \$8,620,018.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2019, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$87,081,842. The net pension liability was measured as of June 30, 2018. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2018, the District's proportion was 0.3266%.

For the year ended June 30, 2019, the District recognized pension expense of \$16,789,170. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 8,620,018	\$ -
Differences between expected and actual experience	5,708,767	-
Changes of assumptions	8,694,738	-
Changes in proportion	1,743,738	498,102
Net differences between projected and actual earnings on pension plan investments	714,267	-
Total	\$ 25,481,528	\$ 498,102

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. The net difference between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and remaining amount is deferred and will be amortized over the remaining four-year period. The remaining net differences between projected and actual earnings on plan investments shown above represents the unamortized balance relating to the current measurement period and the prior measurement period on a net basis.

All other deferred outflows of resources and deferred inflows of resources are amortized over the expected average remaining service life (EARSL) of the plan participants. The EARSL for the CalPERS Schools Pool Plan for the June 30, 2018 measurement date is 4.0 years. The first year of amortization is recognized in pension expense for the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods not to exceed 3.0 years.

Actuarial Methods and Assumptions

Total pension liability for the Schools Pool Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2017, and rolling forward the total pension liability to June 30, 2018. The financial reporting actuarial valuation as of June 30, 2017 used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions	
Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Experience Study	July 1, 1997 through June 30, 2015
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.15%
Investment Rate of Return	7.50%
Consumer Price Inflation	2.50%
Wage Growth	Varies by entry age and service

Mortality assumptions are based on mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. For purposes of the post-retirement mortality rates, those revised rates include 15 years of mortality improvements using 90 percent of scale MP 2016 published by the Society of Actuaries.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for

assumed administrative expenses. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	50%	5.98%
Fixed income	28%	2.62%
Private equity	8%	7.23%
Real assets	13%	4.93%
Liquidity	1%	-0.92%

Discount Rate

The discount rate used to measure the total pension liability was 7.15% and reflects the long-term expected rate of return for the Schools Pool Plan net of investment expenses and without reduction for administrative expenses. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the Schools Pool Plan fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District’s proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.15%)	\$ 126,786,998
Current discount rate (7.15%)	87,081,842
1% increase (8.15%)	54,140,731

Changes of Assumptions

During the fiscal year of the measurement date of June 30, 2018, the CalPERS Board adopted new mortality assumptions for the plan. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected ongoing mortality improvement using 90 percent of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75% to 2.50%. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00% to 2.75%. Deferred outflows of resources for changes of assumptions represents the unamortized portion of this assumption change.

NOTE 17: JOINT POWERS AGREEMENTS

The District participates in three joint powers agreement (JPA) entities, the Schools Excess Liability Funds (SELF), the Protected Insurance Programs for Schools (PIPS) and the Southern California Regional Liability Excess Fund (SoCalReLiEF).

Each JPA is governed by a board consisting of a representative from each member district. Each governing board controls the operations of its JPA independent of any influence by the District beyond the District's representation on the governing boards.

Each JPA is independently accountable for its fiscal matters. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPA. Separate financial statements for each JPA may be obtained from the respective entity.

The relationships between the District and the JPAs are such that neither JPA is a component unit of the District for financial reporting purposes.

NOTE 19: COMMITMENTS AND CONTINGENCIES

Litigation

The District is involved in claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs, which are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

County School Facilities Funds

The District is currently involved in several construction and modernization projects funded through the Office of Public School Construction. These projects are subject to future audits by the State, which may result in other adjustments to the fund.

Purchase Commitments

As of June 30, 2019, the District was committed under various capital expenditure purchase agreements for construction and modernization projects totaling \$16.9 million. Projects will be funded through Bond Proceeds, State Facilities Grants, Capital Facilities Funds, and General Funds.

NOTE 20: SUBSEQUENT EVENT – MEASURE Y

On December 5, 2019 the District closed its general obligation bonds, Measure Y, 2010 election by issuing Series 2019 D in the amount of \$29,356,650. Proceeds will be used to finance the acquisition, construction and modernization of school facilities and paying related costs.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2019**

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Budgetary Comparison For The General Fund and Major Special Revenue Fund(s)

A budgetary comparison is presented for the general fund and for any major special revenue fund that has a legally adopted annual budget. This schedule presents the budget as originally adopted, the revised budget as of the fiscal year end, actual amounts at fiscal year end, and any adjustments needed to present the amounts in accordance with generally accepted accounting principles (GAAP).

Schedule of Changes in the Net OPEB Liability

The schedule is intended to show trends about the changes in the District's actuarially determined liability for postemployment benefits other than pensions.

Changes in Benefit terms and Assumptions used:

Benefit changes – No change.

Changes of Assumptions:

- Increased the discount rate from 4.0% to 6.0% to reflect the long-term rate of return on OPEB plan investments.
- Health care trend rate increased from 5% to 6% to better reflect increased medical costs.
- Actuarial cost method was changed from projected unit credit to entry-age normal to align with the requirements of GASB 75.

Schedule of Postemployment Healthcare Benefits Employer Contributions

The schedule is intended to show trends about the amounts contributed in relation to the actuarially determined contribution.

Actuarially determined contribution rates are calculated as of February 1, 2017.

Methods of assumptions used to determine contribution rates are:

Actuarial Cost Method	Entry Age, Level Percent of Pay
Discount Rate	6%
Salary Increases	3%

Mortality rates were based on the RP-2014 Employee Mortality Table for Males or Females, as appropriate, without projection for the valuations.

For the Fiscal Year Ended June 30, 2019**

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Postemployment Healthcare Benefits Money-Weighted Rate of Return on Plan Assets

The schedule is intended to show trends about the rate of return on plan assets.

Schedules of District's Proportionate Share of the Net Pension Liability – CalSTRS (STRP) and CalPERS (Schools Pool Plan)

The schedule presents information on the District's proportionate share of the net pension liability, the plans' fiduciary net position and, when applicable, the State's proportionate share of the net pension liability associated with the District. In the future, as data becomes available, 10 years of information will be presented.

Schedules of District Contributions – CalSTRS (STRP) and CalPERS (Schools Pool Plan)

The schedule presents information on the District's required contribution, the amounts actually contributed and any excess or deficiency related to the required contribution. In the future, as data becomes available, 10 years of information will be presented.

NOTE 2: EXCESS OF EXPENDITURES OVER APPROPRIATIONS

There were excesses of expenditures over appropriations in the General Fund:

Employee Benefits	\$ 8,103,009
Other Outgo	142,903

There were no excesses of expenditures over appropriations in the Nutrition Services Fund.

NOTES TO THE SUPPLEMENTARY INFORMATION For the Fiscal Year Ended June 30, 2019

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance (ADA)

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has met or exceeded its target funding and has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal governmental for the year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District did not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Payments to Subrecipients

The District did not make any payments to subrecipients.

RIALTO UNIFIED SCHOOL DISTRICT

**NOTES TO THE SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2019**

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Financial Trends and Analysis

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule be prepared showing financial trends of the general fund over the past three fiscal years as well as the current year budget. This report is intended to identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

Schedule of Charter Schools

The *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule list all charter schools chartered by the District and inform the users whether or not the charter school information is included in the District's financial statements.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the annual Financial and Budget Report form to the audited financial statements.

Board of Education
Rialto Unified School District
Rialto, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Rialto Unified School District (the District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated December 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be

material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE UNIFORM GUIDANCE**

Board of Education
Rialto Unified School District
Rialto, California

Report on Compliance for Each Major Federal Program

We have audited Rialto Unified School District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance, for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Education
Rialto Unified School District
Rialto, California

We have audited the Rialto Unified School District's (the District) compliance with the types of compliance requirements described in the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting (the Guide)*, published by the Education Audit Appeals Panel for the year ended June 30, 2019. The District's state compliance requirements are identified in the table provided.

Management's Responsibility

Management is responsible for compliance with the state laws and regulations as identified below.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance based on our audit of the types of compliance requirements referred to below. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the specific areas listed below that could have a material effect on compliance with the Guide has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Opinion on State Compliance

In our opinion, the District complied in all material respects with the compliance requirements of the state programs referred to above for the year ended June 30, 2019.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, and which is described in the accompanying schedule of findings and questions costs as item 2019-001. Our opinion on state programs is not modified with respect to this matter.

The District's responses to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report on state compliance is solely to describe the results of testing based on the requirements of the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Accordingly, this report is not suitable for any other purpose.

2019-001 School Accountability Report Card 72000

Original Finding 2018-002

Criteria: The information on the School Accountability Report Card (SARC) should be reported consistent with the Facility Inspection Tool for that school, as required by the provisions of Education Code Section 33126.

Condition: The District reported information on the SARC that was inconsistent with the Facilities Inspection Tool (FIT) for two of the six schools selected. The error was noted on the SARC prepared for Henry Elementary School and Zupanic Independent Study High School.

Context: Not applicable.

Effect: Information regarding the condition of Henry Elementary School and Zupanic Independent Study High School for the 2017-18 school year was incorrectly reported on the SARC published during the 2018-19 school year, pursuant to Education Code Section 33126.

Cause: Unknown.

Questioned Costs and Units: Not applicable.

Recommendation: We recommend that FIT forms are kept on file to substantiate the condition of the District's facilities reported on the SARC to ensure they reconcile. Furthermore, the District should complete a comparison between the SARCs and FIT forms before final publication.

Management Response: The District established a procedure to reconcile all supporting documents for the SARC prior to approving the final version for publication.

2018-002 School Accountability Report Card: 72000

Criteria: The information on the School Accountability Report Card (SARC) should be reported consistent with the Facility Inspection Tool for that school, as required by the provisions of Education Code Section 33126.

Condition: The District reported information on the SARC that was inconsistent with the Facilities Inspection Tool (FIT) for one of the six schools selected. The error was noted on the SARC prepared for Zupanic Independent Study High School.

Effect: Information regarding the condition of Zupanic Independent Study High School for the 2016-17 school year was incorrectly reported on the SARC published during the 2017-18 school year, pursuant to Education Code Section 33126.

Cause: Unknown.

Questioned Costs: Not applicable.

Recommendation: We recommend that FIT forms are kept on file to substantiate the condition of the District's facilities reported on the SARC to ensure they reconcile. Furthermore, the District should complete a comparison between the SARCs and FIT forms before final publication.

Current Status: Not implemented. See Finding 2019-001.

2018-003 Instructional Materials Public Hearing Notice 70000

Criteria: According to Education Code Section 60119, a public hearing must be held on or before the end of the eighth week from the first day pupils attend school for that year.

Condition: During our testing of the state compliance requirement, it was noted that the first day of school was August 7, 2017 and the public hearing was held November 15, 2017. This is beyond the eighth week as required per above.

Effect: Not in compliance with Education Code 60119.

Cause: Unknown.

Questioned Costs: No questioned costs required.
