THE TWO SIDES OF ATTENDANCE

If your child is in school regularly and on time-

- Your student will learn more and receive better grades and test scores.
- There is a better likelihood of high school graduation and on to college and/or a job.
- Less opportunity of your child to “get in trouble” in the neighborhood or community.

If your child is not in school regularly and on time-

- Greater chance of your child becoming a high school drop-out resulting in a low paying job.
- Increased chance of committing a crime and going to jail or prison.
- You and your child will be referred to the School Attendance Review Board for disciplinary action. Both you and your child may be cited by law enforcement (police).

Thank you for joining us!
