Re: _____
Student Name (Print) Grade School

Parent/Guardian Name (Print)

I understand the policy of the Rialto Unified School District's Transportation Services service area is as follows:

An adult must be present to pick up **Special Education** students when the student is dropped off at the home bus stop. It is the District policy that a bus driver will **not** release the child from the bus if an adult is not present to receive the child.

Please Check Only One

____ My child is capable and responsible, and can walk alone without an adult from the school bus. I release the Rialto Unified School District and any transportation company involved of any and all responsibility for the care and wellbeing of my child after he/she leaves the bus.

____ My child needs supervision when he/she gets off the bus. The following person or persons has/have my permission to receive my child at the bus stop.
Designated person must present ID. Must be 18 years and over.
